Marineland, Fla.—An air view of Marine Studios, world's only oceanarium, comprised of two huge tanks containing 850,000 gallons of sea water, it is the only one of its kind in the world. There are over 50,000 specimens of marine life ranging in size from 12 ft. Tiger Sharks to many hundreds of small brilliantly colored tropical specimens. These two huge tanks are set in a narrow strip of palm-fringed beach front on the new Ocean Shore Boulevard, Florida Route #140, midway between Daytona Beach and St. Augustine, and are accessible from the Maine–to–Miami inland waterway.
